

THE LONDON MATHEMATICAL SOCIETY NEWSLETTER

No.155

November 1988

The Newsletter is published monthly except in August. Items and advertisements for inclusion in the Newsletter should be sent to the Editor (Susan Oakes, London Mathematical Society, Burlington House, Piccadilly, London W1V 0NL) to arrive before the first day of the month prior to publication.

FORTHCOMING SOCIETY MEETINGS

Friday 18 November 1988, Royal Society
Annual General Meeting
(E.C. Zeeman, V.I. Arnol'd)

Friday 20 January 1989, Burlington House

Friday 17 February 1989, Warwick

Friday 17 March 1989, Scientific Societies Lecture Theatre

Thursday, Friday 18-19 May 1989, Liverpool
Representations of Algebras

Friday 16 June 1989, Burlington House

Friday 20 October 1989, Burlington House

Friday 17 November 1989, Royal Society

PROFESSOR SIR MICHAEL ATIYAH'S 60th BIRTHDAY

On the 21st and 22nd April 1989 a meeting will be held in Oxford in honour of the 60th birthday of Professor Sir Michael Atiyah. There will be about seven talks by leading mathematicians on a variety of subjects reflecting Professor Atiyah's interests.

For more details please write to the organisers, Simon Donaldson and Graeme Segal, at the Mathematical Institute, 24 — 29 St Giles, Oxford OX1 3LB.

INTERNATIONAL MATHEMATICAL INSTITUTE, LENINGRAD

It has been announced that an International Mathematical Institute is to be established in Leningrad by the Academy of Sciences of the U.S.S.R. with Academician L.D. Faddeev as its Director. The Institute, which will be located on the banks of the River Neva in a fine old building which is presently being completely refurbished, will commence operations on 1st January 1990.

The work of the Institute will be based on a year of three trimesters, in each of which its activities will focus on a particular field of mathematics,

selected by the Institute's International Council. During this time, some 15 to 20 overseas mathematicians will be invited to visit the Institute, for periods of one to three months, with a further 10 to 15 mathematicians from the U.S.S.R. outside of Leningrad visiting the Institute during the trimester.

Each trimester will end with a major international conference in the field of activity, to which around 50 participants from outside of the U.S.S.R. will be invited.

RUSSIAN MATHEMATICAL SURVEYS

Russian Mathematical Surveys, which started in 1960, is a translation of 'Uspekhi Matematicheskikh Nauk', the leading journal in the U.S.S.R. that publishes surveys of various branches of Pure Mathematics, Mechanics, and Statistics. In addition to the survey articles it includes Biographical articles and the two-page Communications of the Moscow Mathematical Society.

The Journal is published six times a year, shortly after the publication of the corresponding issues of 'Uspekhi'. The subscription rates for 1989 are:

£148 in United Kingdom

£222 outside United Kingdom.

These rates include all six issues of Volume 44 (1989); rates for single issues are available on request.

For further information on the journal and details of how to take out a subscription (for yourself or for your library) please contact Susan Oakes at the LMS office.

D.A. Brannan
Publications Secretary

THE 1989 HARDY LECTURER

LMS Council is pleased to announce that Professor V.F.R. Jones has accepted its invitation to be the 1989 Hardy Lecturer. Vaughan Jones obtained the B.Sc. degree from the University of Auckland in 1972 and the degree of Docteur es Sciences in 1979 from the Ecole de Mathématiques, Geneva, Switzerland. Since 1985 he has been Professor of Mathematics at the University of California, Berkeley. In 1983 he was an Alfred P. Sloan Research Fellow and he held a Guggenheim Fellowship in 1986.

Professor Jones will be visiting the U.K. for four weeks from 24 May 1989 and will give about twelve lectures including the 1989 Hardy Lecture to the Society in London on Friday 16 June. He would be prepared to lecture on the following topics:

Type II factors
Index for subfactors

Knot polynomials
Statistical mechanics and knot theory
Hecke algebras and generalizations related to link invariants
Braid group representations in quantum physics

Institutions that wish to invite Professor Jones to give a lecture should write to the Meetings and Membership Secretary, A.R. Pears, Department of Mathematics, King's College, Strand, London WC2R 2LS by 31 December 1988. It is expected that many more invitations will be received than can be accepted and neighbouring institutions are strongly encouraged to submit joint invitations. The itinerary and lecture titles at each venue will be decided by Programme Committee in consultation with Professor Jones and the host institutions.

25th AUSTRALIAN APPLIED MATHEMATICS CONFERENCE

The Applied Mathematics Conference is an annual gathering of applied mathematicians, engineers and scientists working in all areas of Applied Mathematics. It is organised by the Division of Applied Mathematics of the Australian Mathematics Society and its objective is to provide a forum for the presentation and discussion of papers from a broad spectrum of applications. Traditionally it has maintained an informal atmosphere, with graduate students being especially encouraged to attend and participate.

The 1989 conference will be held on 5th to 9th February 1989 at the Ballarat College of Advanced Education, which is located 8km from the centre of Ballarat, 100km from Melbourne.

Major themes and invited speakers for the conference are: Computing in Applied Mathematics,

R.A. Gingold (ANU); Mathematics in Engineering, D.B. Ingham (Leeds); General Relativity, R.P. Kerr (Canterbury); Geophysical Fluid Dynamics, P.H. Roberts (UCLA); Nonlinear Waves, G.B. Whitham (Caltech).

Contributed papers are welcome on any topic in Applied Mathematics, abstracts of which must be submitted by mid December 1988. No conference proceedings will be published but a book of abstracts will be distributed at the time of the conference. A poster session will also be held.

For further information contact: The Conference Secretary, 25th Australian Applied Mathematics Conference, Department of Mathematics, Monash University, Clayton 3168, Victoria, Australia. Telephone (03) 565 4443. Electronic mail apm388p@monul.oz.au.

JOINT MEETING WITH THE AMS IN 1992

LMS Council is pleased to announce that the American Mathematical Society and the London Mathematical Society have agreed to hold a joint meeting in Cambridge, U.K., from Monday 29th

June to Wednesday 1st July 1992. More details will appear in subsequent issues of the Newsletter.

A.R. Pears
Meetings and Membership Secretary

LONDON MATHEMATICAL SOCIETY

Annual General Meeting
Friday 18 November 1988 at 3.00

Professor V.I. Arnol'd
will speak at 3.10 on
Singularities and Bifurcations in
Mathematics and Physics

Professor E.C. Zeeman
will give his Presidential Address at 5.00
On the Classification of Dynamical
Systems

Tea will be served at 4.10

**The meeting is at the Royal Society,
Wellcome Lecture Hall, 6 Carlton House Terrace,
London SW1**

The Annual Dinner will be at the Royal Society

All interested are very welcome

PLEASE NOTE EARLY START AT 3.00 pm AND VENUE

APPROXIMATION THEORY AND NUMERICAL LINEAR ALGEBRA PROFESSOR RICHARD S. VARGA'S 60th BIRTHDAY

The Department of Mathematical Sciences and the Institute for Computational Mathematics at Kent State University will host a conference on the subjects of Approximation Theory and Numerical Linear Algebra to be held at Kent State University (Kent, Ohio, USA) on March 30, 31 and April 1, 1989. The meeting is in honour of Professor Richard S. Varga, who has been a University Professor at Kent State since 1970 and Director of the Institute for Computational Mathematics since 1980, on the occasion of his 60th birthday.

The Conference will consist of 15 invited 1-hour addresses, 6 solicited 20-minute talks, and 8

contributed 15-minute papers. The Conference is international in nature, with 9 of the current list of 21 invited participants coming from outside of the continental United States, and it bears the endorsement of the International Mathematical Union. The proceedings of the conference will be published in *Numerische Mathematik*.

The Meeting is open to all who wish to attend. For further information contact Professor E.C. Gartland, Jr, Department of Mathematical Sciences, Kent State University, Kent, OH 44242, USA. Electronic mail: GARTLAND@KENT.EDU or EGARTLAN@KENTVM.BITNET.

SINGAPORE PROBABILITY CONFERENCE

The Singapore Probability Conference will be held at the National University of Singapore on 8th to 16th June 1989. It will comprise a workshop (8 — 10 June 1989) and a conference (12 — 16 June 1989). Invited speakers will give lectures on a wide range of topics on probability theory. Contributed paper sessions will also be arranged. Abstracts for contributed papers will be required by the end of March 1989. The proceedings of the Conference consisting of the invited and workshop lectures will be published.

All interested are welcome to participate. Further

information and registration forms can be obtained from Dr Jiann-Hua Lou, Organizing Secretary, Singapore Probability Conference, Department of Mathematics, National University of Singapore, Lower Kent Ridge Road, Singapore 0511, Republic of Singapore. Electronic Address: MAT-LOUJH@NUSVM.BITNET.

The Conference is being organized jointly by the Department of Mathematics of the National University of Singapore and the Singapore Mathematical Society, and is sponsored by the Southeast Asian Mathematical Society.

UNIVERSITY COLLEGE OF SWANSEA

Lecturer in Mathematics

Applications are invited for a lecturer Grade A in the Department of Mathematics and Computer Science. Preference will be given to candidates working on Operator Algebras and Applications/Mathematical Physics. Strong candidates in all fields are, however, encouraged to apply.

The salary will be either on the Grade A scale £9260 — £14500 per annum, or on the Grade B scale £15105 — £19310 per annum, depending on age and experience, together with USS/USDPS benefits, if required.

Further particulars and application forms (2 copies) may be obtained from the Personnel Office, University College of Swansea, Singleton Park, Swansea SA3 8PP, to which office they should be returned by **November 30, 1988**.

UNIVERSITY OF EDINBURGH

CHAIR IN APPLIED MATHEMATICS

The University invites applications for the Chair in Applied Mathematics, which will become available on 1 October 1989.

Candidates should have a proven record of distinction in some application of mathematics. Both traditional and newer areas of application are appropriate. It is intended that the Professor will be able to interact successfully with members of the Mathematics Department and with others both within and outwith the University. There is considerable potential for interaction within the University in view of the acknowledged strength of the University's research across a broad spectrum of subjects. The Professor would be expected to provide a general leadership role within the Mathematics Department.

Further particulars of the position and the Department's activity can be obtained by writing to the Secretary to the University (address below) or by contacting the Head of the Mathematics Department, telephone 031-667 1081 ext 2942.

Applications (10 copies) should include a Curriculum Vitae and the names of at least three referees; they should reach The Secretary, University of Edinburgh, 63 South Bridge, Edinburgh EH1 1LS, by 15 December 1988. Please quote reference 56/88.

MATHEMATICIANS VISITING THE UK 1988-89

Bath University

Professor C.J. Amick (University of Chicago, U.S.A.) Differential Equations, 1 Sep 88 — 31 Dec 88

Professor C.A. Stuart (EPF Lausanne, Switzerland) Differential Equations, 1 Apr 89 — 1 Aug 89

Professor H. Massam (York University, Canada) Exponential families Optimization and Statistics, 1 Sep 88 — 30 Jun 89

Professor Iain M. Johnstone (Stanford University, U.S.A.) Statistics, Sept 88 — Feb 89

Cambridge University — DAMTP

Dr J. Anandan (University College Berkeley U.S.A.) Relativity

Dr A. Andradi (Ruder Boskovic Institute, Zagreb, Yugoslavia) High Energy Physics, 4 Oct 88 — 2 Dec 88

Professor J. Azcarraga (University de Valencia, Spain) High Energy Physics, 4 Oct 88 — 9 Jun 89

Dr E. Bagan (Spain) High Energy Physics, 4 Oct 88 — 9 Jun 89

Mr T.F. Brandt (I. de F. University de S. Paulo, Brazil) High Energy Physics, 4 Oct 88 — 2 Dec 88

Professor H.G. Davies (University of New Brunswick, Canada) Fluid Dynamics, 4 Oct 88 — 9 Jun 89

Professor J. Hamilton (Retired, Cambridge and Copenhagen) High Energy Physics, 4 Oct 88 — 9 Jun 89

Professor J.B. Hartle (University College Santa Barbara, U.S.A.) Relativity, 17 Jan 89 — 9 Jun 89

Professor K.S. Havner (N. Carolina State University, U.S.A.) Solid Mechanics 17 Jan 89 — 9 Jun 89

Professor J.B. Keller (University of Stanford, Cal. U.S.A.) Fluid Dynamics, 4 Oct 88 — 2 Dec 88

Dr T. Koyaguchi (Ehime University, Japan) Fluid Dynamics, 4 Oct 88 — 9 Jun 89

Dr N.H. Kyong (Korean Inst. of Energy and Resources) Fluid Dynamics, 4 Oct 88 — 9 Jun 89

Dr H. Liu (Wulham University, China) Fluid Dynamics, 4 Oct 88 — 9 Jun 89

Dr C.P. Martin (Madrid, Spain) High Energy Physics, 4 Oct 88 — 9 Jun 89

Dr B. Moore (University of Technology, Sydney, Australia) Theoretical Seismology, 17 Jan 89 — 9 Jun 89

Dr E. Ramos-Mora (Lab. de Energia Solar, Mexico) Fluid Dynamics, 4 Oct 88 — 9 Jun 89

Ms M. Rodriguez Plaza (University of Madrid, Spain) Relativity, 4 Oct 88 — 9 Jun 89

Professor S.S. Sadhal (University of Southern California, U.S.A.) Fluid Dynamics, 4 Oct 88 — 9 Jun 89

Dr Y. Sakai (Nagoya University, Japan) Fluid Dynamics, 18 Apr 89 — 9 Jun 89

Professor S.B. Savage (McGill University, Canada) Fluid Dynamics, 17 Jan 89 — 17 Mar 89

Dr A. Sneyd (University of Waikato, New Zealand) Fluid Dynamics, 4 Oct 88 — 2 Dec 88

Mr T. Steel (University of Western Ontario, Canada) High Energy Physics, 4 Oct 88 — 9 Jun 89

Dr H. Stone (Dept. of Engineering Caltech, U.S.A.) Fluid Dynamics, 4 Oct 88 — 9 Jun 89

Dr P.C. Waylen (University of Canterbury, New Zealand) Relativity, 4 Oct 88 — 9 Jun 89

City University

M. Luo (Sichuan University, P.R. China) Fuzzy Topology, 1 Oct 88 — 30 Sep 89

C. Yu (China Institute of Mining, Jiansu, P.R. China) Fuzzy Topology 1 Oct 88 — 30 Sep 89

Durham University

Professor R. Sasaki (Hiroshima University, Japan) Integrable Systems, Sep 88 — Sep 89

Dr M. Farber (Tel Aviv University, Israel) Knot Theory, Jan 89 — Mar 89

Dr J.A. Hillman (Macquarie University, Australia) Knot Theory Jan 89 — Mar 89

Professor Y. Frishman (Weizmann Institute Rehovot, Israel) Quantum Field Theory, Jan 89 — Mar 89

Professor N. Schappacher (Max-Planck-Institute für Mathematik, Bonn, Germany) Arithmetic, Algebraic Geometry, Oct 88 — Nov 88

Dr L. Palla (Institute of Theoretical Physics Eötvös University, Budapest, Hungary.) Theory of Strings Superstrings, Jan 89 — Dec 89

Edinburgh University

Professor Richard J. Fleming (Central Michigan University, U.S.A.) Functional Analysis, 22 Aug 88 — 31 Dec 88

Professor James E. Jamison (Memphis State University, U.S.A.) Functional Analysis 22 Aug 88 — 31 Dec 88

Professors Ana & Jorge Viola-Prioli (Universidad Simon Bolivar Caracas, Venezuela) Algebra, 8 Aug 88 — 30 Sep 89

Essex University

Dr M.R. Burke (University of Toronto, Canada) Measure Theory, Sep 88 — June 89

Exeter University

Dr P. Blennerhassett (University of New South Wales, Australia) Fluid Dynamics, 1 Jan 89 — 31 Dec 89

lysis, 20 Sep 88 — 11 Dec 88

Mr J. Sun (Inner Mongolia, P.R. China) Analysis,
Sep 88 — Sep 89

Professor H. Triebel (Jena, East Germany) Ana-
lysis, Jun 89 — Aug 89

THE FRONTIERS OF SCIENCE

From 8th to 10th December 1988, there will be a
scientific seminar in Moscow called 'The Frontiers
of Science'. This will be the sixth in a series of
international conferences under the auspices of
scientific colleagues who are excluded from
science. The organising committee will be Mark

Berenfeld, Yuri Chernyak, Eduard Nadgorny and
Igor Uspensky.

For further information, please contact Joan
Dale at Scientists for the Release of Soviet Refu-
seniks, 33 Seymour Place, London W1H 6AT.
Telephone 01-723 5874.

DISCOUNT

Model Theory and Modules

M. PREST

The theme of this book is the interplay between model theory and the theory of modules. Both algebraists and logicians will enjoy this account of an area in which their disciplines interact in a significant way.

London Mathematical Society Lecture Note Series 130

380 pp. 1988 0 521 34833 1 Pb £22.50 net

Algebraic, Extremal and Metric Combinatorics 1986

M-M. DEZA, P. FRANKL and I. G. ROSENBERG

This represents a comprehensive overview of the present state of progress in three related areas of combinatorics. All the papers contain new results and the topics covered include association schemes, extremal problems, combinatorial geometrics and matroids, and designs.

London Mathematical Society Lecture Note Series 131

254 pp. 1988 0 521 35923 6 £20.00 net

Whitehead Groups of Finite Groups

ROBERT OLIVER

Making accessible techniques for studying Whitehead groups of finite groups, this book also includes a variety of related topics such as induction theory and p-adic logarithms. The author has included a thorough introduction for non-specialists who want an overview of this field, its history and its applications.

London Mathematical Society Lecture Note Series 132

An Introduction to Hilbert Space

N. YOUNG

This textbook is an introduction to the theory of Hilbert space and its applications. It has numerous examples and exercises, many with solutions and it is an excellent first course at undergraduate or graduate level. It will also be of value to electrical engineers and physicists involved in control theory and filter design.

Automorphisms of Surfaces After Nielson and Thurston

A. CASSON and S. BLEILER

This is a clear introduction to the application of hyperbolic geometry to low-dimensional topology, requiring the reader to have only an understanding of basic topology and linear algebra. In particular it provides a concise exposition of the work of Nielson and Thurston on the automorphisms of surfaces.

King Fahd University of Petroleum & Minerals

DHAHRAN – SAUDI ARABIA

Department of Mathematical Sciences

Needs

Faculty members for teaching graduate and undergraduate courses in all areas of Mathematical Sciences. Ph.D in Mathematics is required. Candidates must have strong research potential or accomplishments and demonstrated excellence in teaching. Preferred areas of research are Applied Mathematics and Numerical Analysis.

The University offers attractive salary and benefits plus air conditioned furnished housing and air transportation to and from Dhahran each year. Ten months duty each year with two months vacation salary. Minimum regular contract for two years, renewable.

Apply before December 31, 1988, with complete résumé and supporting documents to:

DHAHRAN – 31261, SAUDI ARABIA**

Olaus Magnus Henrici (1840-1918) was originally an engineering apprentice in Germany until Clebsch recognised his talents and persuaded Hesse to take him on as a Ph.D student. Lack of money brought him to England in 1865. In 1869 Hesse introduced him to Sylvester; through him he met Hirst who helped him become Professor of Mathematics at Bedford College. He is best remembered as a teacher, although non-Euclidean geometry always caused him problems. At Bedford he introduced graphical statics (an application of projective geometry) and at the Central Technical College he introduced a Laboratory of Mechanics and, most importantly, a Harmonic Analyser. An FRS in 1874, he was the Society's tenth President, from 1882-1884.
