

RECORDS OF PROCEEDINGS

ORDINARY MEETING

held on 7 September 2021 online, organised by the University of Manchester and hosted by the University of Bielefeld, as part of the Northern Regional Meeting & Workshop which was also a celebration of the work and 60th birthday of Bill Crawley-Boevey. Over 100 members and guests were present for all or part of the meeting.

The meeting began at 1.00pm (BST) with The Vice-President, Professor Iain Gordon, in the Chair.

There were no members elected to Membership at this Society Meeting.

No members signed the Member's Book and were admitted to the Society.

Professor Mike Prest, University of Manchester, introduced the first lecture given by Professor Ulrich Bauer (TU Munich) on *Persistence in functional topology and data analysis*.

Before the break between talks, a group photo was taken.

After the break, Professor Prest introduced the second lecture by Professor Karin Baur (University of Leeds) on *Surface combinatorics and module categories*.

Professor Gordon thanked the speakers, for their excellent lectures and then expressed the thanks of the Society to the organisers, Professor Mike Prest, Professor Henning Krause (Bielefeld University) and Professor Sebastien Eckert (Bielefeld University) for a wonderful meeting and workshop. Professor Gordon conveyed his, and the Society's, appreciation of Bill Crawley-Boevey's inspirational mathematical work.

After the meeting closed, there were breakout rooms in which participants could meet and talk with the speakers.
